

"Nature's Gift from the Sunny South"

Cottolene

Shortens your food—Lengthens your life

The source and making of Cottolene insure its purity. From the white, tufty tops of The Sunny South-land's cotton the seed is removed, the oil extracted, refined, and made neutral in taste and odor. **From Cottonfield to Kitchen**—human hands never touch the oil from which Cottolene is made.

Compare the source of Cottolene with the source of lard, and draw your own conclusions as to the comparative cleanliness, purity, and healthfulness of the two products.

Celluloid Collar Attacks a Man. John Wydown, a butcher, at No. 1,220 East Falls street, blames a celluloid collar for a revolver attack on him early this morning as he lay asleep in bed. Six shots the collar fired, the bullets passing under and over the bed and grazing both ends of the man as he lay dreaming. The attack never him to leap from a second story window during a lull in the firing.

Wydown, who is unmarried, went to his little room over the shop last night, and following his custom, piled his shirt, necktie, and celluloid collar upon a table, and on all he placed his loaded six shooter. Having no gas, he used a candle for light. That, too, he placed on the table, and arranged himself in bed to read for a time. Sleep overcame him and found the candle still burning.

Gradually the candle wore away, the wick finally swimming uneasily in a pool of tallow. Just as it was about to go out, the celluloid collar reached out a wick, and the last

shot rang out. Three other shots followed in rapid succession, whizzing all about the little bed. Then came a pause. In that pause Wydown threw off the bedclothes and made a dash for the window, jumping to the ground just as the last cartridge exploded. The time was 4:10 o'clock.

For ten minutes Wydown stood in the yard, his heart throbbing. He was not much hurt by the jump. He had not then fathomed the attack of the celluloid collar. He thought that robbers had visited him. His nerves returning, he re-entered the house, taking with him a bucket of water above stairs. There was no fire left. The celluloid collar had been finally done up in the attack.—Niagara Falls special to Buffalo Express.

Then there came a sharp report, and Wydown sat up briskly to find the room black with smoke, and then to lie down as quickly again as another

shot rang out. Three other shots followed in rapid succession, whizzing all about the little bed. Then came a pause. In that pause Wydown threw off the bedclothes and made a dash for the window, jumping to the ground just as the last cartridge exploded. The time was 4:10 o'clock.

GENUINE CASTORIA Bears the Signature of

Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Lester, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."

Dr. W. T. Seeley, of Amity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. J. McCann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Howard James, of New York, City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

Chas. H. Fletcher.
